A Pathologist's Prayer

Lord, as I begin each day of careful work,
grant me eyes that see clearly, a mind that thinks wisely,
and a steady hand guided by compassion.

•

Help me remember that every slide tells a human story,
every specimen carries a life's questions,
and every report I sign may shape a family's hope.

•

Give me patience when answers are hidden,
humility when I am certain,
and courage to seek clarity when the path is uncertain.

•

Bless me with discernment, diligence, and integrity
in every diagnosis, and with gratitude
for the privilege of serving through science.

•

May I never stop learning,
may I work with excellence and purpose,
and may I always honor the trust placed in me.

•

In moments of fatigue, renew my strength.
In moments of doubt, grant me clarity.
In moments of success, teach me gratitude.

•

May I find meaning in discovery, joy in service,
and peace in knowing that behind every slide
is a person hoping for answers.

Amen.
